

INTRODUCE ABOUT MYSELF

About Me

#outgoing
#openminded
#honest
#dynamic

Hello, I am a person who kind of hard-understanding, I like doing what myself hates, simply because I know that what I hate is also what I am bad at. So, you can guess... Yes, I did not know anything about designing, hand-drawing...etc before, but It has changed since I learned that “ drawing and designing are also the way to express my thought, my creativities”

As a young man with high determination , I always know what should I do to reach my goals, then find the ways to get it as fast as I can.

Although I am not a big person, I believe I can do big things with my little hands.

An old man told me “nothing's impossible, it just depends on the way we approach it”. I hundred percent agree with that saying because of the endless of human's abilities.

NGUYEN
Curriculum Vitae

In my experience, poor people are the world's greatest entrepreneurs. Every day, they must innovate in order to survive. They remain poor because they do not have the opportunities to turn their creativity into sustainable income.
